

To keep your carpets as beautiful as the first day, please take the following instructions in consideration.

EVERYDAY USE

- The carpet should not be beaten during cleaning, it should rather be cleaned using a powerful vacuum cleaner without beater bar, preferably every day.
- The furnitures (sofa, table, etc.) on the carpet can leave traces, to prevent it; the carpet or the objects should be re-located at certain intervals. The areas with traces should be swept with the brushless tips of the vacuum cleaner.
- Carpet shouldn't be kept as roll due to border finishing.

STAIN REMOVAL

If something is spilled on your rug you must act quickly!

- Apply a tampon with a paper towel to excess spillage before the liquid is spreaded.
- Any cleaning agents containing bleaching chemicals (such as bleach) should not be used. Please prefer warm/cold water.
- After the buffer application, the stained are should be wiped with a damp cloth with natural white soap.
- Wiping should be done with the help of a soft and white cloth in the direction of weaving, in a way that will not disperse the stain; Applications that will damage the circular weaving structure should be avoided.
- Make sure nobody walks on the treated rug surface until it is completely dry.

DEEP CLEANING

- You should take support from professional carpet cleaning companies for deep cleaning.
- Carpet cleaning company should be informed regarding care instructions (ex: High chemical detergents or hard brushes and tools may harm the fibers. They shouldn't be used. The carpet should be completely purified from the cleaning materials.)
- After cleaning, you should dry the carpet on flat floor. For professional carpet care and cleaning, you can consult the sales point where you bought your carpet.
